PROFESSIONAL EXPERIENCE

Associate Product Manager | Lucid Software | South Jordan, UT

May 2025 - Present

- Partnered with cross-functional teams to support product roadmap development, conduct market research, A/B testing, and analyze customer feedback to drive data-informed decisions for product improvements.
- Built and presented a feature proposal to improve the canvas tagging experience based on user research using NotebookLM, competitor analysis, and customer journey maps, **driving the product roadmap for Q2 2026**.
- Led team to **1st place** in company hackathon, beating 67 teams, competing against VPs, directors, and managers.

AI Product Manager | salus.ai (Sandbox) | Provo, UT

April 2025 - April 2026

- Worked with an engineer to launch Salus.ai, an AI platform to streamline operations for admissions coordinators in skilled nursing facilities, saving four hours weekly from reviewing lengthy documentation and manual data entry.
- Led **product strategy, user research, and prototyping** efforts to validate our hypothesis and build a solution.

Data Analyst/Scrum Master | Intermountain Health | Salt Lake City, UT

Apr 2024 - May 2025

- Collaborated with multiple stakeholders to effectively build and maintain key dashboards estimated at \$800,000 and quickly address unstructured problems, **saving them 60 minutes daily**.
- Secured **3rd place** in the Enterprise Tableau Data Visualization Competition with a team of three, presenting to an audience of over 100 people, including analysts, directors, and managers, using storytelling with data principles.
- **Automated Excel tracking spreadsheet** using SQL and a Tableau Dashboard, saving managers 60 minutes weekly.

Training Supervisor | Brigham Young University | Provo, UT

Jul 2021 - Apr 2024

- Developed training meetings and instructional tools to build teaching, conflict resolution, and time management skills, leading to a 10% improvement in student-teacher evaluations while managing a team of 7.
- Achieved an **average survey rating of 4.9/5.0** based on communication, leadership, and employee satisfaction.

PROJECTS

BYU IS Talent Portfolio

- Engineered an **AI-powered resume book** for the BYU IS department that utilizes semantic search to match job descriptions with student profiles, reducing recruitment overhead and saving two to three hours of manual searching.
- Built a serverless RAG application using AWS Lambda, Amazon Bedrock, Pinecone, Claude Opus 4.5, and Cognito to process PDF resumes into vector embeddings for high-accuracy retrieval of resumes.

LEADERSHIP AND VOLUNTEER EXPERIENCE

Team Lead | BYUSA - Student Advisory Council | PROVO, UT

May 2024 - May 2025

- Researched and spearheaded a campus-wide initiative to improve campus engagement, leading a team of eight to develop and implement strategic enhancements, with results presented to the university president for consideration.
- Reviewed and analyzed new and existing campus policies to identify and raise critical concerns and awareness, effectively advocating on behalf of the student body.
